

Task 7

```
public static int diagonalDifference(List<List<Integer>> arr) {  
    int n = arr.size();  
    int p = 0, s = 0;  
  
    for (int i = 0; i < n; i++) {  
        p += arr.get(i).get(i);  
        s += arr.get(i).get(n - 1 - i);  
    }  
  
    return Math.abs(p - s);  
}
```
